

Doctoral School Engineering Sciences (ED SPI 072)

Overview about doctoral training

All PhD students must collect a number of credits following their participation in doctoral training in the three areas listed below:

- Thematic training (summer schools, master classes, training courses organized by the laboratory or ED SPI);
- Training related to research methodology or research tools (organized by the Doctoral School ED SPI or <http://www.cue-lillenorddefrance.fr/>);
- Professional training.

The number of credits (CFD) to be collected depends on the thesis type:

- 60 CFD including at least 20 CFD on professional training for a PhD student funded by a doctoral contract;
- 30 CFD in three training areas for a PhD student with a joint supervision between two universities of different countries (co-tutelle agreement);
- 40 CFD distributed in the area of thematic training and research methodology for CIFRE PhD Student.

The PhD students must establish a training plan in the first year and try to accumulate a maximum of credits in the first two years, the third year being very loaded.

The PhD students must write a Formadoc portfolio (<http://www.cue-lillenorddefrance.fr/?q=college-doctoral/formations>) into a PDF file and send it to the Doctoral School.

The PhD students must send the certificate of attendance and the program for each training to Malika.Debuysschere@univ-lille.fr **before June 2019**, so that the CFD are validated. **CFD will be validated by Doctoral School between January and June 2019.**

Contact : Malika.Debuysschere@univ-lille.fr.

Rules for CFD collection

- Domain 1 : Thematic training (summer schools, master classes, training courses organized by the laboratory or ED SPI);
 - Master classes :
1 CFD / 4 hours (max 20 CFD). A certificate of attendance fulfilled by the teacher and the program have to be sent to Malika.Debuysschere@univ-lille.fr.
 - MOOC :
1 CFD / 5 hours (max 10 CFD). A certificate of attendance and the program have to be sent to Malika.Debuysschere@univ-lille.fr.
 - Summer or thematic school :
5 CFD / day (max 20 CFD). A certificate of attendance and the program have to be sent to Malika.Debuysschere@univ-lille.fr.
 - Member of organization committee of conferences:
5 CFD/ conference. A certificate has to be sent to Malika.Debuysschere@univ-lille.fr.

The participations to conferences, workshops and seminars are not considered as doctoral trainings.

- Domain 2 : Training related to research methodology and language ;
 - English : 10 CFD/ 30 hours (max : 20 CFD).
 - French as foreign language : 10 CFD/ 36 hours (max : 20 CFD).
 - Other language : contact Malika.Debuysschere@univ-lille.fr (max : 10 CFD).
 - Other trainings are organized by the Doctoral School (see French version about trainings)
- Domain 3 : Professional training.
 - Please, read the list FORMADOC that is available at <http://formadoc.net/>
